

Hydraulic Goods Platform.

Scissors Type

Application of Hydraulic scissor platform as goods platform between floors.

Hydraulic Goods Platform[®]

- These are economical Equipment to use as Goods elevators.
- There is no civil work or machine room requirement.
- Space requirement is minimum.
- Controls on ground and first floor can be provided.
- Optimally door can be provided on equipment.
- Scissor type can be upto 9m travel.
- Vertical mast type can be upto 5.8m travel

2 ton hydraulic goods platform Size 3300 x 2700 mm for use at Yamaha Motors warehouse

Platform Size 1500 x 1500 mm hydraulic triple scissor platform with Bellows cover for use in paper processing plant of ITW Signode.

Scissors type Goods Platform

Model	Capacity Kgs.	Platform Size Length x Width (mm)	Travel (mm)
UGL - 03	300 Kgs	1900X1000 mm	3400 mm
UGL - 20	2000 Kgs	2135X1825 mm	1700 mm
UGL - 40	4000 Kgs	2600X1000 mm	3100 mm
UGL - 70	7000 Kgs	2700X2400 mm	1200 mm
UGL - 25	2500 Kgs	2500X2200 mm	1300 mm
UGL - 10	1000 Kgs	2100X2200 mm	1200 mm

Note: Operation is by 415 VAC Hydraulic power pack. Dual controls, railings, doors, guides, interlocks are optional.
Pit depth varies for different models.

3 X 2.5 m Heavy duty Hydraulic scissor platform with auto trolley lock & photo sensors for use at TELCO car / truck body paint shop at TELCO, Pune Duty cycle 6 min. continuous

2 ton hydraulic platform (2m X 2m) for use at Departmental store to load goods from Lorry to Stores directly.

4 ton Heavy Duty Hydraulic platform with stainless steel cladding for copper manufacturing plant of Sterlite Industries, Duty Cycle continuous

Vertical Mast Type

Economical 500 Kg, 1200 X 1200 platform size vertical mast type Goods Platform with compact Hydraulic Power unit Does not require any pit, machine room or shaft. Application Moving Typewriter parts to mezzanine floor. (Godrej)
