

## DOUBLE SIDE PP, POLYESTER & TISSUE TAPES FOR VARIOUS APPLICATIONS

# adfix®

An ISO 9001:2008 certified company established in 1984, has a highly technical team. With several manufacturing units and world class technology we bring to you one of the finest double sided tapes in the industry.

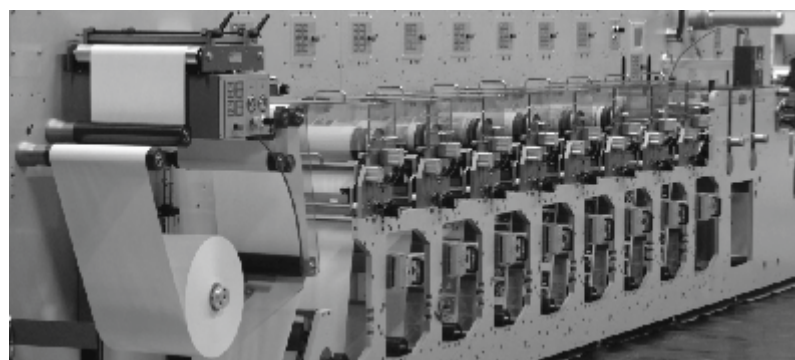

With hot melt rubber based adhesive the bond is REALLY REALLY strong. The adhesive is imported and of medical grade.

We produce this fine range of double sided tapes on a German coating line. They

are cut to order specific size on Korean design slicing machines.

With suppliers across the globe we bring the world closer to you. We also cater to various other industries for their self adhesive requirements.

**adfix** announces the range of double sides PP, Polyester and tissue tapes for various applications across different industrial requirements.

Grades Available	Peel adhesion to steel @180	Rolling ball tack	Release Paper Colour
