PLANON

Automatic hot-air welding machine Easy – robust – efficient

Our smallest automatic hot-air welding machine for welding of all thermoplastic roof and tarpaulin material.

- approved and robust technology
- adjustment of speed by potentiometer
- available in 20, 30 or 40mm welding seam width
- automatic start function
- high welding speed
- efficient and user-friendly

Technical data

Voltage	230 V
Frequency	50/60 Hz
Power consumption	2500 W
Speed	0,5 – 12 m/min
Temperature	20 – 600 °C
Air-flow max. (20°C)	500 l/min
Noise level	50 db
Size (l x w x h)	460 x 360 x 310mm
Weight	11kg incl. 5 m cord
Conformity marking	CE

also available in 120 V
