

DIGITAL INCLINOMETERS / PROTRACTORS

Dual - Axis 0.01° Digital Inclinometer

Model DMI600

Measures inclinations in X and Y axis with high accuracy

Resolution : 0.01° • **Range :** +/- 90° • **Accuracy :** 0.02° to 0.04° as per the range

- LED display readable in faintly lighted areas
- Magnetic base Holds on to steel surfaces.
- High quality re-chargeable battery
Can be charged 5000 times
- Absolute & Relative (Zero setting) modes
- Full metal casing and IP65 protection
- RS 232 output
- Small size (60 x 90 x 26 mm)
- Separate Display and Sensor with shaft for measuring rotational angles available (Optional)

Mini Digital Protractors

MDP - S (Steel Body) L. C. 0.05°

MDP - A (ABS Body) L. C. 0.1°

Digital Inclinometers

DLI (With Infra-red beam) L. C. 0.05°

DP01A (Heavy Steel Base) L. C. 0.1°

Common Features (For models MDP-S, MDP-A, DLI and DP01A)

Large digit display always reads upright even in upside down position

- Range : 4 x 90°
- Can show % of slope conversion to degree
- Conversion from degree to % of slope & vice versa
- Measured value can be held with HOLD button
- Base with magnets holds on to steel surfaces
- Auto power off as well as ON/OFF button

Additional Features (For specific models)

DLI : Emits Infra-red beam from one end to project it on a surface for marking etc.

DP01A : Gives beep signal at the interval of 10° • V-Groove base also available

Specifications

Model	Resolution	Accuracy (+/-)	Model	Resolution	Accuracy (+/-)
MDP - S	0.05°	0.1°	DLI	0.05°	0.1°
MDP - A	0.1°	0.2°	DP01A	0.1°	0.2°

Individual catalogue available on request • Specifications and design subject to change without notice
