

Tyre Changer

Model: - Smart TC (076)

- The jaw claw and the sliding block adopts cast steel material. Wear proof and no deformation is achieved.
- The sliding claw block make it have wider working scope for the rim of automobile and motorcycle from 9" to 22".
- It could handle the motorcycle wheel with the wheel axle and brake block the wheel.
- Quilted clamp cover and plastic insert for mount/demount head protect the rim from scratching.
- By adjusting micro manipulator control knob, the perfect control between the rim and the duckhead is reached and avoid the damage to rim.
- That is working on the 9" rim of the motorcycle wheel.
- That is working on the 19" rim of the motorcycle wheel.

Technical Data (Motorcycle)

• Power Voltage	:	220v/380v
• Working Air Pressure	:	0.8-1.0MPa
• Rate	:	1.1~0.75Kw
• Rim Diameter	:	Inner 12"~22" Outer 9"~20"
• Rim Width	:	3"-10"
• Max Aheel Diameter	:	38"
• Average Rotate Speed	:	6.8rpm
• Shovel Force	:	2000kg
• Net Weight Appex	:	185kg

Technical Data (Car)

• Rim Diameter	:	Inner 12"~22" Outer 11"~20"
• Rim Width	:	3"-10"

Model: - Smart TC (078)

Technical Specifications :

Rim clamping	:	8" - 22"
Bead breaker force	:	2500kg
Max. Wheel diameter	:	960mm
Wheel width	:	3" - 12"
Operating pressure	:	8 - 10 bar
Motor power	:	1.10/0.75 kw

Features :

- Self Centering device
- Pneumatic bead breaker blade
- Most suitable for mag wheels
- Special tool for alloy wheels

We undertake calibration & maintenance of any make of digital automatic tyre inflator / air gauges.

Due to continuous engineering improvements, specifications are subject to change. Pictures shown in this folder are representative and not the entire range..
